

- PROSPECT - PROKUM – G

plastic bags x 100 g; 400 g, - boxes x 400 g (2x200 g), 3 kg - sacks x 10 kg and 20 kg -

ACTIVE SUBSTANCE:

0,005% Brodifacoum CAS No. 56073-10-0 CE No. 259-980-5, anticoagulant on support of whole wheat.

The product contains BITREX.

Specific antidote: Vitamin K1.

INDICATIONS:

For controlling mice and rat infestations in houses, stables and farm buildings, gardens, landfills, barracks, warehouses, wagons, containers, etc. Brodifacoum works by blocking the synthesis of prothrombin and capillary wall patency. Death occurs in 3-6 days after ingesting the bait. The grain is heat treated to combat grain weevils..

INSTRUCTIONS OF USE:

Place in the interior and exterior of buildings (urban and agricol) 20 to 200 g of bait in every professional bait station. Inspect the bait station regularly, and replace the consumated bait in the first 10-14 days. Repeat the treatment in case of a new infestation. In the case that after 7-10 days e activity of the rats stops around a bait station, move it to a place with higher activity. Fix the bait with a wire, so it can not be moved by water.

PRECAUTIONS:

P102- Keep out of reach of children.

P220-Keep/store away from food, drink and feed.

P262- Do not get on skin.

P270- Do not eat, drink or smoke when useing this product.

P280- Wear protective gloves.

P404- Store in a well closed container.

P405- Store locked up.

P501- Dispose of content/container in accordance with local reglementations.

P301+P310- IF SWALLOWED: call immediately a POISON CENTER or a doctor.

For occuring accidents by failure to comply with the instructions of use, the person who used the toxic bait is responsible.
