

**- PROSPECT -
PROKUM – PELLET**

- plastic bags x 100 g; 400 g , 3 kg sacks x 10 kg and 20 kg -

ACTIVE SUBSTANCE:

0,005% Brodifacoum CAS No. 56073-10-0 CE No. 259-980-5 - anticoagulant on support of ground and pelleted wheat.

The product contains BITREX.

Specific antidote: Vitamin K1.

INDICATIONS:

For controlling mice and rat infestations in houses, stables and farm buildings, gardens, landfills, barracks, warehouses, wagons, containers, etc. Brodifacoum works by blocking the synthesis of prothrombin and capillary wall patency. Death occurs in 3-6 days after ingesting the bait. The grain is heat treated to combat grain weevils.

ISTRUCTIONS OF USE:

Place it in bait station where mice and rats are active. For fighting rats place 10-60 g of bait at distances of 10 meters (5 meters in case of heavy infestations), and for fighting mice 5-20g at distances of 5 meters (2 meters in case of heavy infestations). Check frequently the consumption of the bait and replace it until the consumption stops. If there is no rodent activity, after 7-10 days move the bait station into an area where the activity of mice/rats is higher. If all bait were consumated in an area increase the number of bait spots. Repeat in case of a new infestation.

PRECAUTIONS:

P102 - Keep out of reach of children.

P103 - Read label before use.

P220 - Store/keep away from clothing/combustible materials.

P262 - Do not get on skin.
