

HERBA-PRIM

Anti-diarrheal powder

(small bag of 250 g, box of 750 g and bag of 10 kg)

COMPOSITION:

100 g of Herba-Prim powder contains:

- 28 g medicinal herb mixture
- 36 g kaolin (Bolus alba)
- 36 g calcium carbonate.

INDICATIONS:

Due to herbs, the product has astringent, antidiarrheal, antispasmodic, antiseptic, anti-inflammatory, eupeptic, tonic, choleric and cholagogue properties.

Kaolin, as an adsorbent, fixes toxins and protects the intestinal mucosa, decreasing the absorption of enterotoxins.

Calcium carbonate enriched with magnesium carbonate, in addition to the antacid and anti-diarrheal, astringent effects, represents a supply of calcium and magnesium to the body.

For primary or secondary diarrheal diseases of the digestive system. Indicate use for large and small ruminants and pigs.

ADMINISTRATION:

Oral dose: - The general dosage is 25-50 g/100 kg, 1-2 times a day for 2-3 days.

In adult cattle: 125-250 g, 1-2 times a day, for 2-3 days, under the form of a drench

For young bulls: 25-50 g/100 kg, 1-2 times per day for 2-3 days under the form of a drench.

For pigs, sheep, calves: 20-60 g, 1-2 times a day, for 2-3 days, in the form of a drench, or during feeding. For calves, infant lambs and pigs in severe cases can be associated with antibiotics.

PRECAUTIONS:

Keep out of children's reach! Do not reuse packaging!

STORAGE:

Store in tightly closed packages, away from sources of fire, sun and moisture at room temperature (15-25 degrees C).

VALIDITY: 2 years in its own packaging, under prescribed conditions of storage.
